

**Welcome to this step-by-step guide on how to request and receive a payout from your MAGAbit Wallet using Payment World.**

---

**1. Logging into your MAGAbit Back Office.**

Open your browser and go to: <https://backoffice.magabit.net>

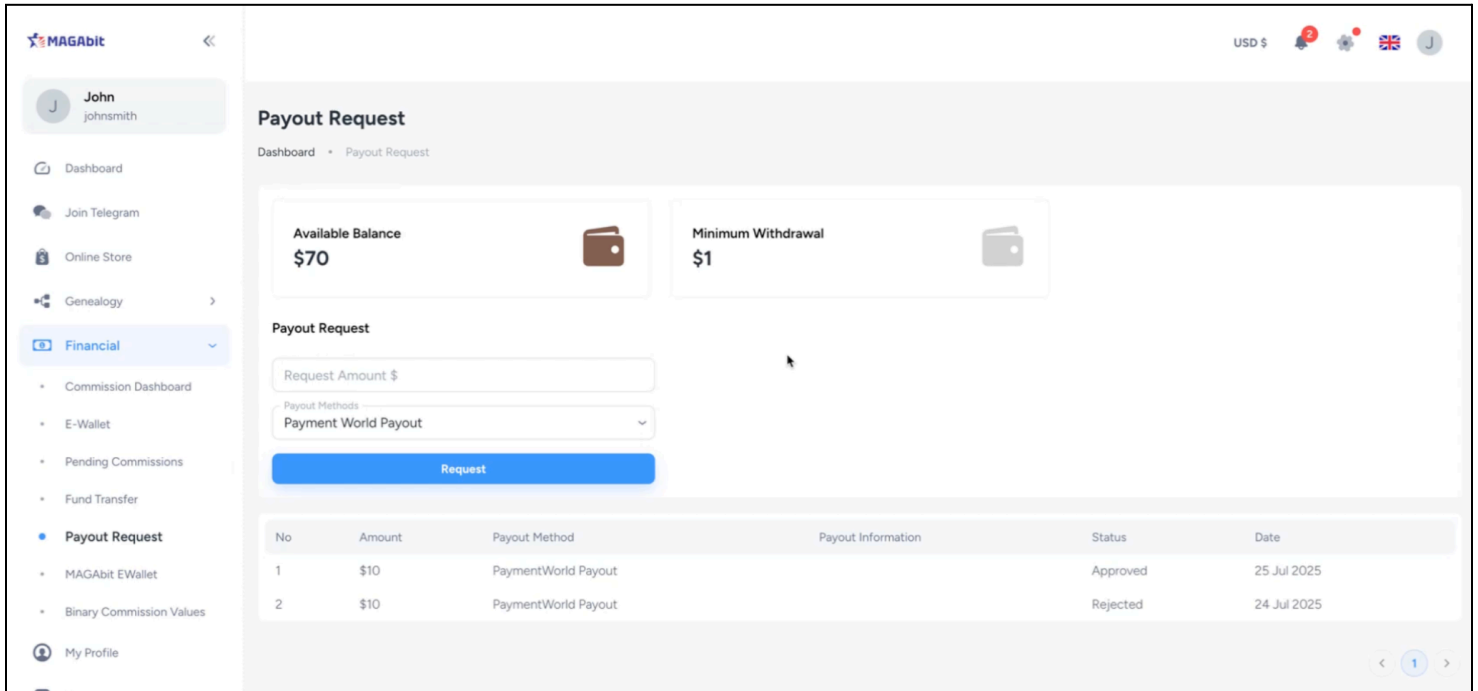

Enter your login credentials and sign in.

A screenshot of the MAGAbit login page. The page has a light gray background. In the top right corner, there is a small American flag icon, the text "Don't have an account?", and a blue button labeled "Get Started". In the center, there is a white login form. The form has the MAGAbit logo at the top, followed by the text "Hi, Welcome Back!" and "Sign in to MAGABIT". Below this, there are two input fields: "Email address" and "Password". The "Password" field has a small eye icon to its right. Below the input fields, there is a checkbox labeled "Remember me" which is checked, and a link labeled "Forgot password?". At the bottom of the form is a blue button labeled "Login" with a small mouse cursor icon over it.

## 2. Requesting a Payout

Once you're logged in, look for the "Financial" tab in the left-hand menu.

Click on "Payout Request."

The screenshot shows the MAGAbit user interface. On the left is a sidebar menu with the user's name 'John johnsmith' and a 'Financial' tab selected. The main area is titled 'Payout Request' and shows an 'Available Balance' of \$70 and a 'Minimum Withdrawal' of \$1. Below this is a form with a 'Request Amount \$' input field, a 'Payout Methods' dropdown menu set to 'Payment World Payout', and a blue 'Request' button. At the bottom, a table lists previous payout requests.

No	Amount	Payout Method	Payout Information	Status	Date
1	\$10	PaymentWorld Payout		Approved	25 Jul 2025
2	\$10	PaymentWorld Payout		Rejected	24 Jul 2025

On this page, you'll see your available balance.

If it's more than one U.S. dollar, you're eligible to make a payout request.

In the field labeled "Request Amount," enter how much you'd like to withdraw.

In the "Payout Method" dropdown, select: Payment World Payout.

Then, click the "Request" button.

Your request will now appear in the section below, showing the requested amount, method, status, and date.

After submitting your request, please allow up to 24 to 48 hours for our team to process it.

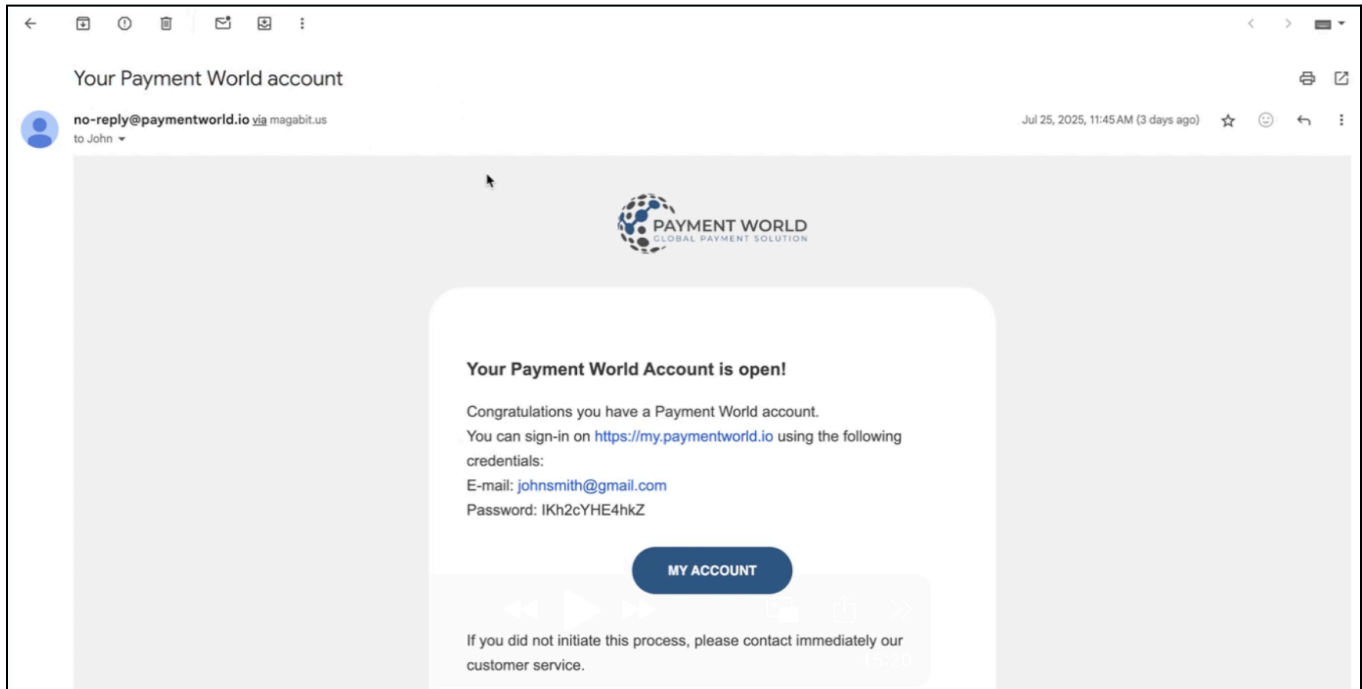

You can check back on the same page to see if the request has been approved.

If you don't see an update after 48 hours, contact MAGAbit Support at: [support@magabit.us](mailto:support@magabit.us)

### 3. Set up a Payment World account (If you already have one, you can skip to Step 5).

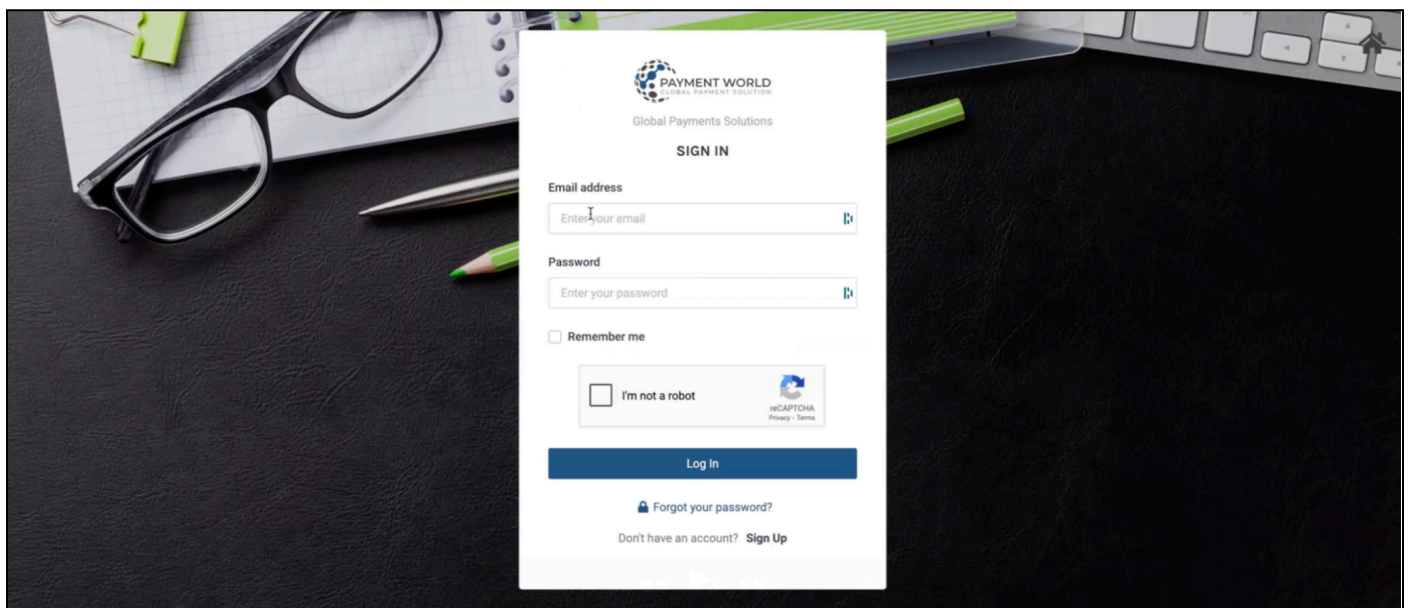

If this is your first payout request, check your email inbox.

Look for a message titled: “Your Payment World Account.”

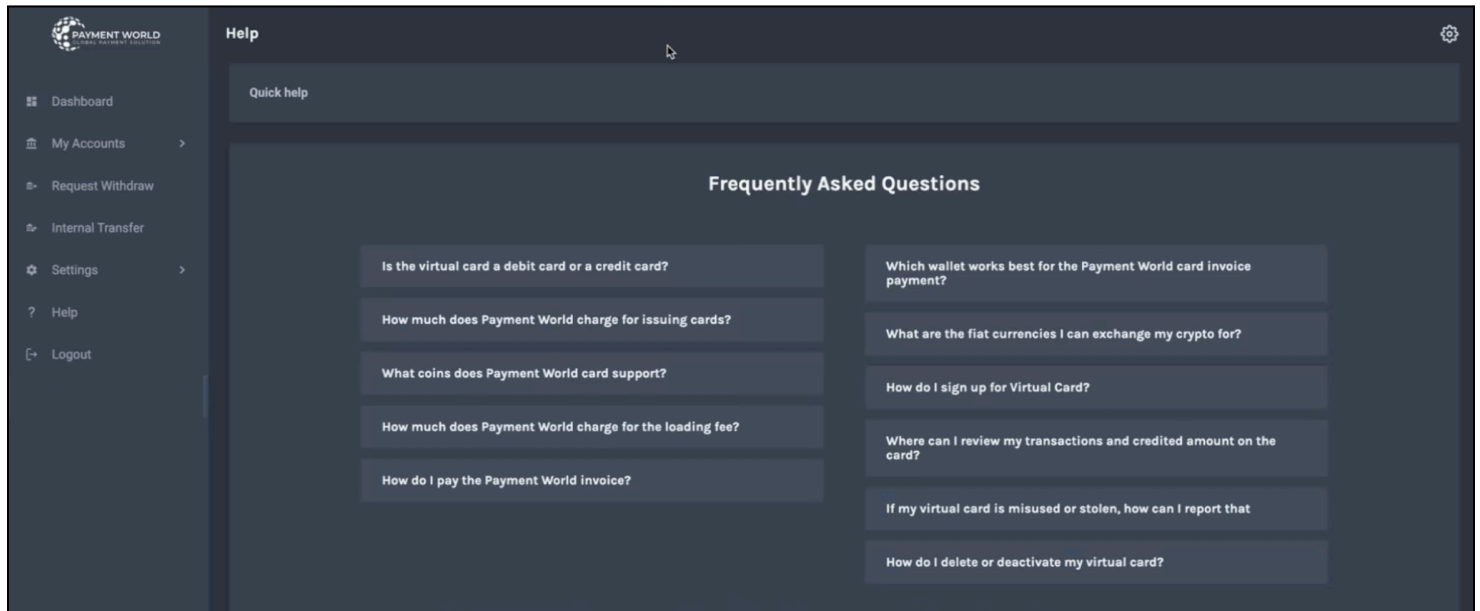

Click the “My Account” link inside that email. You’ll be taken to the Payment World login page.

Use your email address and the temporary password provided by Payment World to log in.

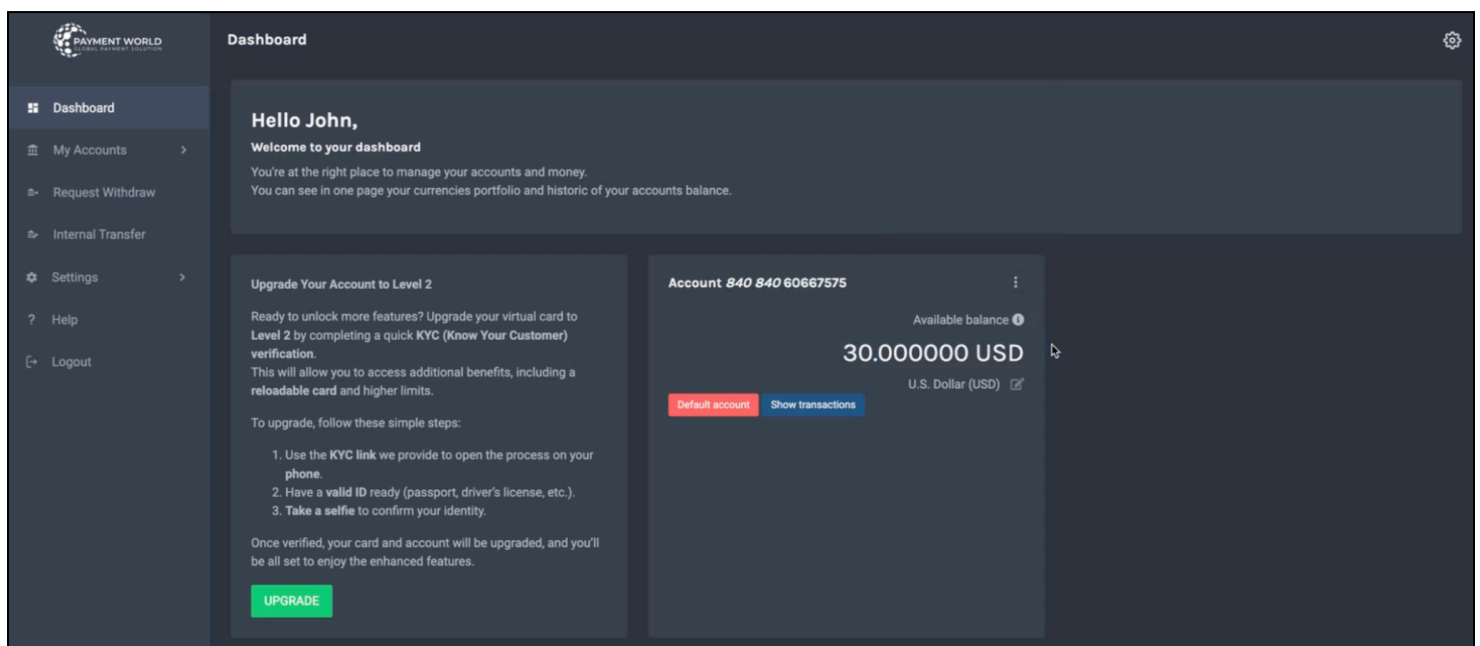

#### 4. Inside the Payment World Portal

When you first log in, you'll see the Frequently Asked Questions page.

Take a moment to read it - especially if you're new to the platform.

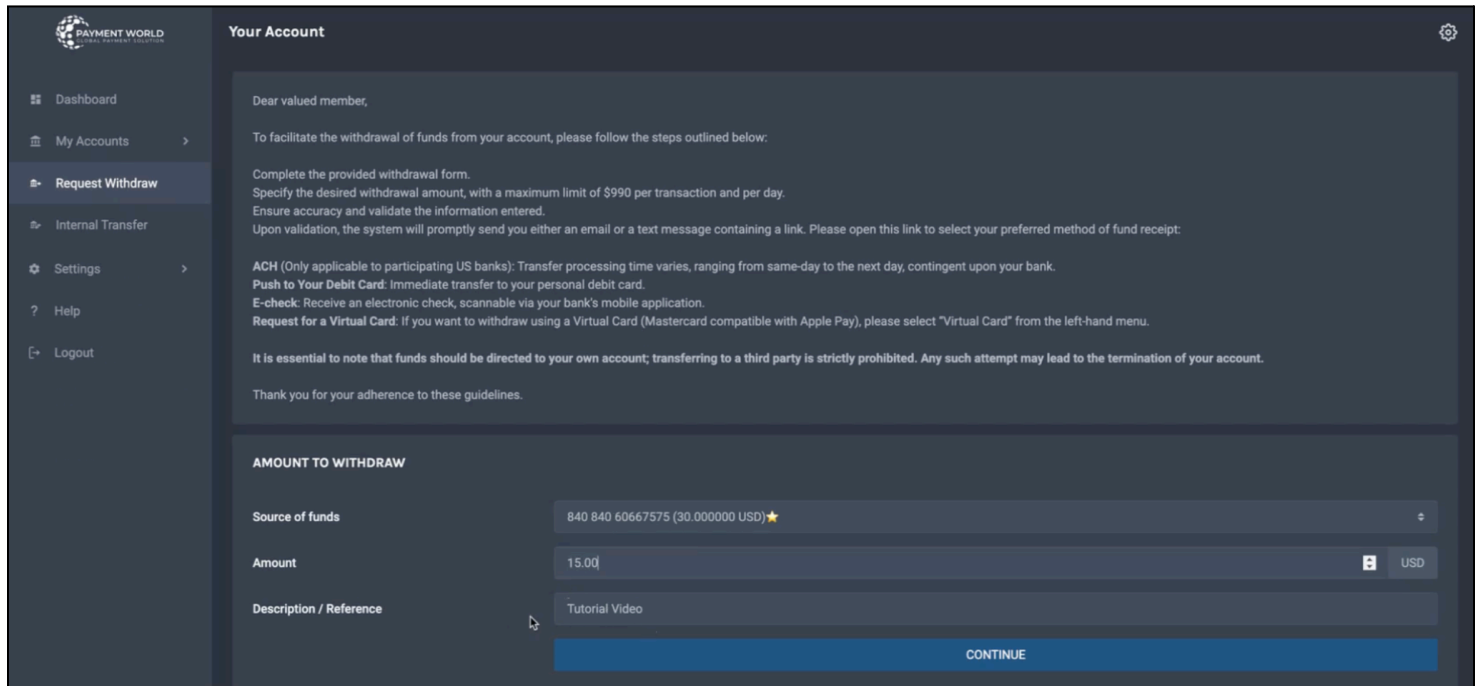

Next, click "Dashboard" to view your eWallet balance.

Your account starts at Level One. You will need to complete Level Two KYC verification once your total withdrawals exceed \$1,000, regardless of the withdrawal method or how much time has passed.

## 5. Withdrawing from Payment World

Now, click the “Request Withdraw” option in the menu.

The screenshot shows the 'Request Withdraw' page in the Payment World interface. On the left is a dark sidebar menu with options: Dashboard, My Accounts, Request Withdraw (highlighted), Internal Transfer, Settings, Help, and Logout. The main content area is titled 'Your Account' and contains instructions for withdrawing funds, including a maximum limit of \$990 per transaction. Below the instructions is a form titled 'AMOUNT TO WITHDRAW' with three fields: 'Source of funds' (showing a card number), 'Amount' (with '15.00' entered), and 'Description / Reference' (with 'Tutorial Video' entered). A blue 'CONTINUE' button is at the bottom right of the form.

Enter the amount you wish to withdraw from your eWallet.

Your available balance will be shown as the Source of Funds.

Keep in mind, a five-dollar fee applies to all withdrawals.

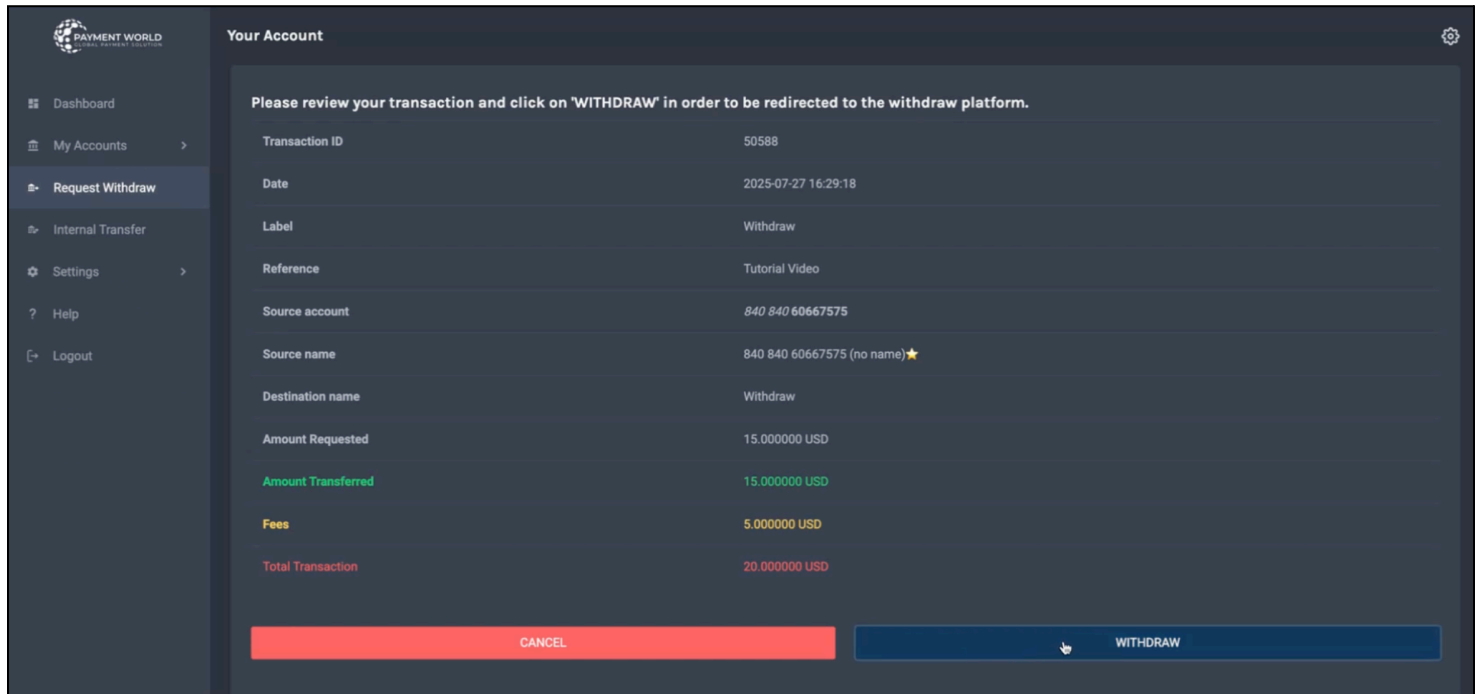

For example, to withdraw twenty dollars, you need at least twenty-five dollars in your wallet.

You may leave the Description field blank or use it for personal reference.

When you're ready, click “Continue.”

## 6. Confirm and Complete the Withdrawal

On the confirmation page, you'll see the withdrawal amount, the five-dollar fee, and the total that will be deducted.
